

mimi liu

Club Riot brings an interactive clubbing experience to your desk. it's for people who love to dance, but don't have the time. you literally have the whole club at your feet. club riot uses your subconscious reaction to music - the tapping of your feet as you dance in your seat - to control the flow of music and the lighting of the dance floor. dj with your left foot, light the club with your right. the entire club atmosphere is tailored to your moves.
